

# architectural BRONZE CASEMENTS

## STANDARD DOOR FURNITURE NOT SLIMLINE OR FOLDING DOORS

Door furniture is bronzed to complement the Architectural Bronze Patina of your doors. The applied finish may burnish through the repeated use revealing a luxurious lustre. Regular re-application of wax will help to preserve the original finish.

As part of the maintenance schedule for your doors, we recommend with the Euro pack that the multipoint levers are lubricated with petroleum jelly, and lock cylinders with one puff of graphite powder every 12 months. With the traditional pack, mortice locks and hinges should be lubricated sparingly with white grease, again every 12 months.
